EMERGENCY DEPARTMENT MANAGEMENT

- Is your ED Losing Revenue?
- Is your ED capturing relevant triage information?
- Is tracking patient activity and results a challenge?
- Is there a need to optimize patient flow?
- Are your physicians not using the system?

With years of hands on experience both within the Emergency Department and Information Systems, CPEOPLE will focus on best practice to positively impact the following items:

- Improved Patient Throughput
- Streamlined ED Processes
- Technology factors to improve user workflow
- Assessments based on Chief Complaints
- Appropriate design for improved ED reimbursement
- Physician Documentation, Orders and Results,
- Integration of data from ED to the In-Patient units

CPEOPLE will provide a Registered Nurse with real clinical experience in hospitals as well as being an expert in utilizing Meditech's EDM application. This highly specialized skill set will help insure a successful outcome for your project.

Our nurses understand the challenges and complexities of providing safe, affordable, high quality care in today's market. Patient safety, best practices and efficient workflows will be focal points when we assist you with your EDM Application. This will be accomplished by providing your facility with an efficient Emergency Department documentation system.
