IMPLEMENTATION ASSISTANCE

Are you planning to implement any of the following?

- 6.0 Applications
- MEDITECH HCIS
- Individual Application(s)
- Application Enhancements
- 3rd Party Solutions/Integration
- Point of care hardware

PRE-IMPLEMENTATION PLANNING

CPEOPLE can help you plan for any of the endeavors listed above. We will help you develop an effective project plan, project charter, staffing, budgets, realistic milestones, etc.

PROJECT MANAGEMENT

The CPEOPLE team consists of highly experienced project managers that have led to dozens of successful implementations. We will work with an internal project leader and utilize our tools for coordination of the project. These tools include project plans, charter, issue tracking sheet, testing, status boards and communication platforms.

IMPLEMENTATION RESOURCES

People are the most important item that makes projects successful. Our team has successfully implemented systems/applications in some of the most complex Healthcare environments. Whether it is a clinical, financial or administrative skill set that is required, CPEOPLE has the individual to meet your need.

POST IMPLEMENTATION AUDITS

Post implementation audits are extremely important in measuring project outcomes. Depending on the project, we will come in xx number of weeks/months after completion to assess the state of the areas effective, coordinate post implementation needs and provide support needs analysis for system maintenance and future upgrades.

CPEOPLE can assist you with these endeavors. With decades of experience in the MEDITECH environment, our team will provide necessary needs for a successful implementation.
